DESME

Photocells for automatic gates and safety devices

THEA A.15 O.PF
THEA A.15 O.PF UNI

DESMEA.15 O

Design, innovation and technology. These are the messages conveyed by the new range of photocells, which perfectly combine elegance, practicality, safety, ergonomics and functionality. The range includes adjustable and fixed photocells to cover every installation requirement.

Photocells for automatic gates and safety devices

DESME

Code	Name	Description
P111526	DESME A15	Pair of self-aligning photocells. Range 30 m. Power supply 24 V ac/dc. Design, innovation and technology. These are the messages conveyed by the new range of photocells, that perfectly combine style, functionality, practicality, safety, ergonomics and functionality. The possibility of orienting the infrared beam in the DESME A.15 O model allows quick and easy installation of the photocells even on walls or columns that are not aligned with each other, thereby saving time and ensuring a neat and perfect installation.
R400006	KIT DESME - PHP	Kit complete with a pair of aluminum columns for photocells and a pair of Desme A.15 self-aligning photocells, maximum range 30 m, power supply 24 V ac/dc. Pair of aluminum columns with a pair of DESME A.15 self-aligning photocells

	DESME A15	KIT DESME - PHP
Voltage	24 V	---
Horiz. adjustment	no °	---
Vert. adjustment	no °	---
Range	30 m	---
Protection rating	IP55	---

RECOMMENDED ACCESSORIES

new P903028 - PHP A Pair of aluminium posts for THEA, DESME and COMPACTA series photocells Height 522 mm	new P903029 - PHP2 A Pair of double aluminium posts for THEA, DESME and COMPACTA series photocells. Height 1038 mm
new P903030 - PHP4 A Pair of aluminum posts of different heights, for Q.bo series selectors and THEA, DESME and COMPACTA series photocells. Column for selector: height 1038 mm, column for photocells: height 552 mm	P903022 - PHP BI Dual-face adapter for THEA/DESME photocells
P903023 - PHP BA1 Support for mounting THEA/DESME photocells on Giotto, Moovi and Michelangelo enclosures	new P903032 - ADA CC A Pair of adapters for the installation of THEA, DESME and COMPACTA photocells on CC posts
P903024 - ACV20 Vandal-proof protection for DESME photocells	P903020 - APL Pair of foundation plates for PHP posts
new P903033 - ADA PHP A Pair of adapters for the installation of THEA, DESME and COMPACTA photocells on PHP posts	

Photocells for automatic gates and safety devices

What is U-Link?

The technology that gives you more power

U-Link, Universal Link, is an exclusive BFT platform that can be used to create high-tech ecosystems.

In Home Access Automation, it can be used to communicate with all home access automation devices of any brand. This saves you time and allows you to control everything easily and without any worries.

It is intuitive

Easy to install and to use

It is scalable

You can add as many devices as you want

It is flexible

It allows you to create groups of interconnected products

It is practical

Works with or without an internet connection

It is functional

Its settings can be controlled remotely using dedicated applications

Photocells for automatic gates and safety devices

Everything on one screen: find out more about this amazing technology

A world-exclusive platform that **can be used to create high-tech ecosystems** offering a vast range of solutions for many different sectors.

This proprietary platform which is a key feature of BFT products, thanks to the B-EBA cards and the Clonix U-Link receiver, is suitable for any protocol or product for access automation (including BFT products non-BFT ones and older versions) and it can be used in a variety of different sectors. This means any device becomes a smart device which can be interconnected with other systems, using a language that is becoming universal.

U-Control HOME

U-Control HOME is the application that allows you to open the gate to your home and to remotely control BFT automations using your own smartphone. The iOS version can be used to automatically open the automation when you are close to it.

U-Base 2

A software package for installation, performing maintenance and identifying any faults in the U-Link compatible operators, easily and conveniently.

U-SDK

U-SDK is the application which allows BFT automations to be made compatible and easily integrated with a BMS network.
